MIA and me 2

STORY SYNOPSIS

A new threat arrives on the shores of Centopia... but in a fun disguise. Zootopia, a floating island pulled by winged dolphins, seems like an over-blown fantastic theme park. And its owner Rixel, a gregarious showman, looks like he's a lot of fun. However, it soon turns out that he is also a ruthless big-game hunter who has an eye out not just for Unicorns in general, but for the winged Unicorn Onchao in particular. The Elves soon figure that out and ban Rixel from Zootopia, but he refuses to leave. Instead he unleashes the monstrous dragon Gurga who causes havoc all over Centopia, chasing Elves, Unicorns and pans all over the place on a wild search for Onchao. When Rixel and Gurga catch Unicorns, they imprison them on the island of Zootopia to take on tours all over the world. The Centopians manage to find safety in the Elven Crater, but this is a temporary refuge at best. And with the Unicorns no longer spread all over Centopia, the plants are already starting to wither everywhere.

Meanwhile Mia, in her real life, is on summer vacation at her Grandpa Renzo's farm. But she finds out that Renzo is up to his eyeballs in debt and the bank is threatening to repossess the farm.

Of all people, Violetta's mother is eyeing the farm as she's eager to expand her own estate. At the same time Mia has to deal again with Violetta, her boarding school nemesis from season 1. Mia and Renzo save Violetta's mistreated horse Saphir from the abattoir, but it's a long process for Mia to gain its trust and to bring it back to old shape. Rocco, a boy who helps on Renzo's farm in exchange for some pocket money, helps Mia to prepare for an upcoming horse-jumping competition. They both become closer and gain trust in each other, which gradually turns into love...

In Centopia, Onchao is steadily growing up, making his first attempts to fit into a peer group. But that's not made easier by the fact that the leader of the group, Esko, taunts Onchao and makes him feel that his father Ono, the Unicorn King, was a coward because he left to save the Unicorns, but then never returned.

Onchao feels an intense need to find out the truth about his father's fate and embarks on a journey to the terrifying Blackwood Forest. Accompanied by his friends and Mia he meets the druidess Tessandra, who leads them on a trail of clues to finally find Ono...
